Dear Dr Hatton

Patent Case No P32162 - Quinazoline Antibacterials

We are about to file the above case nationally in a number of countries and you are named as an inventor on the applications, together with Neil Pearson. In support of the US application, we are required to submit a Declaration/Power of Attorney and Assignment (in duplicate) signed by all named inventors.

The documents in question are attached as is a copy of the PCT published specification and I would be most grateful if you would kindly sign the forms where indicated and then return them to me in the envelope provided as soon as possible. Please invoice GlaxoSmithKline for any reasonable costs incurred in reviewing and signing the forms.

Thank you for your assistance and should you have any questions, please do not hesitate to contact me.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Fiona', written in a cursive style.
